OBJECTIVE

Aspiring Information Technology student with a solid foundation in programming, web development, and database systems. Proficient in Java, HTML, CSS, and JavaScript, with proven ability to apply technical skills through hands-on projects and internships. Seeking an opportunity to contribute to a software development team, enhance full stack development capabilities, and grow in a collaborative and innovative environment.

TECHNICAL SKILLS

Programming Languages	Java, C programming(Basics),DSA using Java.
Frontend Technologies	HTML, CSS, JavaScript,React.js.
Database	MY SQL.
Version Control System	Git, GitHub.

EDUCATION

Panimalar Engineering College
B.Tech in Information Technology
CGPA: 8.73/10

Oct 2022 - Apr 2026

EXPERIENCE

Java Full Stack Intern | Pantech ProEd Pvt Ltd

Jun 2024 - Jul 2024

- Worked on a full-stack Java-based web application to improve system functionality and user engagement
- Performed both backend and frontend development activities to ensure smooth performance and responsiveness.
- Built and integrated key modules using Java and RESTful APIs, enhancing core application features and maintainability.
- Collaborated with team members to test, debug, and deploy new features in an agile development environment.

Machine Learning Intern | LearnFlu

Sep 2024 - Jan 2025

- Developed machine learning models for image classification tasks.
- Gained expertise in preprocessing, training, and evaluating ML models.

PROJECTS

Student Management Counselling System

- Developed an Online Counseling System with modules for student records, college data, and course registration using Java, JSP, JSF, JDBC, and SQL.
- Designed and implemented three core modules for managing university data, student records, and counseling sessions with dynamic web interfaces.
- Enabled course registration, college info access, and real-time support via a centralized digital counseling platform

DocLens_AI: AI Document Analyzer

- Built an AI-powered document classifier using Django and NLP.
- Gained expertise in preprocessing, training, and evaluating ML models.

CERTIFICATIONS

- Java Foundation Certification – Infosys Springboard (June 2025).
- Programming Using Java - Infosys Springboard (June 2025).
- Data Base Management System – Swayam/NPTEL (March 2024).
- React js(Basics) - Hacker Rank.

ACHIEVEMENTS

- Solved 50+ problems on LeetCode, enhancing algorithmic and coding proficiency.
- Published research paper: "Open Road Tolling System Enacting No Toll Booth System" – PECTEAM Iconic 7th Conference (2024)
